

## Tilted Blocks

These instructions are for one tilted block and are intended to inspire your creativity. One block can be a mug rug, or several blocks can be placemats, table runner, wall hanging or quilt. Blocks can be re-sized to accommodate your fabric.

Finished size approximately 7" x 7"

All seams are 1/4"

Fussy cut your block to 5-1/2" x 5-1/2"  
Add 2" coordinating border to each side

Using the template on the next page (the 5-1/2" center square of the template should be cut out), line up the 5-1/2" center square on your fussy cut square and cut on the cut lines on all 4 sides.

Flip the template to make blocks tilt in the opposite direction.

Make as many blocks as desired, add sashing and borders to complete your project.

Tilted Block 7
